INTRODUCTION:

When two of my dearest friends, Vincent Solari, age 7, and Cam, his brilliant, artist/mother gave me, SNUGGLE book, I couldn't put it down. It became one of my most valued treasures. Every time I read it to youngens, watch their eyes light up, listen to their giggles I determined that every child, at any age will have the opportunity to experience such joy.

**When I created, eKids4Kids, (eK4K)tm
(Kids creating for Kids),
SNUGGLE, commanded my attention.
While designing the online version, I giggled a lot over
Vincent's remarkable imagination and intellect.**

SNUGGLE incites imagination!tm

**SNUGGLE is dedicated to:
Cam Solari, who made it possible.**

PREFACE

**Snuggle never dies.
He will never get old and die.**

**Even if I'm not telling about him, just remember
he's still alive.**

**There is very friendly place where it is
very warm. It is wonderful there. There are lots
of kitty cats running all around and there are swings.**

**There are some mountains that are called the
CITY MOUNTAINS, and there are daisies all over them
and baby bear cubs and nice little birdies.**

**The tops of the mountains are so tall you
can climb them and go all the way up to the sky.**

**There is a river there called, PARMESAN RIVER.
It is not too hot and not too cold. It is just medium.
And, there is a beach there. There are no sharks and no
Piranhas, just tumbling waves and boats so you can play,
"Pond."**

**Snuggle lives in Vienna. It is wonderful
there.**

**Do you know where Vienna is? It is up in
the air.**

**You can get there by going out in your
backyard and jumping up.**

**Snuggle is the Ranger there. He rules
Vienna. Nothing bad ever happens there.**

**If you had a campfire you couldn't cook
on it because fire doesn't burn in Vienna.**

**If you tried to light a campfire it would go
right out.**

You could only cook one potato crumb.
